DESIGN PACKAGE · 01

Brand & UI kit

Primary logo — on white or the light ground only

Reversed — needs a transparent/white-ink logo file (SVG) from the designer

Colour

Charcoal
#414144 · logo, buttons, body text

Deep charcoal
#2A2A2D · headings, dark bands

Energy gold
#E0C27A · accents, emergency CTA

Bronze
#6B5320 · gold for text on light

Warm stone
#F6F5F1 · alternate sections

Line
#E6E4DF · borders, dividers

Gold is never used for text on white (fails contrast) — use Bronze instead. Gold on charcoal is fine.

Typography

Outfit

Headings, nav, buttons — geometric like the wordmark. Free on Google Fonts.

DM Sans

Body copy and forms — easy to read at small sizes.

H1 · 60/48px

H2 · 44/36px

H3 · 22px semibold

EYEBROW · 14PX CAPS

Body · 17px DM Sans, 1.55 line height

Buttons & components

Primary — Get a free quote

Emergency — Call 24/7

Secondary — Leave a review

Service card

Line icon in a stone tile, title, two-line description.

★★★★★

Review card — real Google review text only.

Reviewer name

Gold bars motif

The two gold bars from the logo's "E" mark the start of key sections.

Photography

- Real team, real jobs — no stock photos of strangers in hard hats
- Headshots: same plain light-grey backdrop, branded polo, shoulders up, natural smile, 4:5 crop
- Job shots: finished switchboards, EV chargers on walls, A/C units, cool rooms, before/after
- The van with logo, outside recognisable Canberra spots

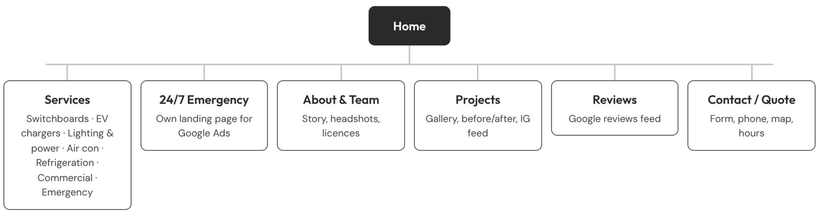

Tone of voice

- Friendly, local, straight-talking — like a good tradie on the phone
- Plain English over jargon ("safety switch" before "RCD")
- Confident, never pushy; honest about price and timing
- Australian spelling: specialise, colour, organise

DESIGN PACKAGE · 02

Content plan & checklist

Sitemap

Start with the one-page homepage on the canvas; add separate service pages later for SEO (one page per service ranks far better than one long page).

To collect from the business

- Phone number (24/7 line) and email
- ABN and ACT electrical contractor licence number
- ARCtick refrigerant handling licence (needed for A/C & refrigeration work)
- Service area — suburbs and regions (e.g. Canberra, Queanbeyan, [OTHERS])
- Business hours and emergency call-out policy / fee
- Team names, roles, one-line bios, and headshots
- 10–20 job photos: switchboards, EV chargers, lighting, A/C, cool rooms
- Logo as vector (SVG/AI/PDF) incl. white version
- Google Business Profile link + review link
- Brands they install (A/C, EV charger, switchgear) and any accreditations
- Warranty / guarantee wording, payment options

Homepage content (in order)

1. Emergency bar with tap-to-call phone
2. Hero: headline, one-liner, Quote + Call buttons, real photo
3. Trust strip: licensed, 24/7, Google rating, Braddon-based
4. Services: 6 cards incl. air con & refrigeration (residential + commercial)
5. About: the supplied business description
6. Team headshots
7. Why us: responsive, honest, detail-oriented, no job too small
8. Google reviews + “Read all” and “Leave a review” links
9. Instagram feed + Instagram/Facebook buttons
10. Quote form with job-type dropdown
11. Footer: ABN, licence numbers, links
12. Chatbot launcher on every page

AI chatbot — setup

- **Options:** a no-code widget (e.g. Tidio, Chatbase, Voiceflow) trained on the site, or a small custom widget calling the Claude API
- **Knowledge base:** services list, service areas, hours, emergency process, quote process, brands, warranty, FAQs below
- **Lead capture:** after 2–3 messages, ask for name, phone, suburb, job type → email to the business
- **Guardrails:** never quotes exact prices; never gives DIY electrical advice; for danger (sparking, burning smell, shocks) says call [PHONE] or 000
- Show “AI assistant” label and a call button in the widget

Chatbot FAQ starter list

- What services do you offer?
- Do you do air conditioning and refrigeration for homes and businesses?
- Do you service/repair cool rooms and commercial fridges?
- Do you have a 24/7 emergency electrician? Is there a call-out fee?
- Which suburbs do you cover?
- How do I get a quote? Do you quote from photos?
- Do I need a switchboard upgrade for an EV charger / solar?
- Are you licensed and insured?
- Do you do commercial maintenance contracts and test & tag?
- What are your hours? How soon can you come out?

Google reviews & socials

- Claim/verify the Google Business Profile (category: Electrician; add Air conditioning contractor and Refrigeration service as secondary categories)
- Show reviews with a widget (Elfsight, Trustindex) or the Google Places API — real reviews only
- Copy the “Ask for reviews” share link from the profile for the “Leave us a review” button
- Instagram: @equalenergysolutions — embed latest 6 posts
- Facebook: Equal Energy Solutions page — consider a custom username URL

SEO basics

- **Title:** Electrician Braddon & Canberra | Equal Energy Solutions
- **Meta:** Local electrician in Braddon — switchboards, EV chargers, lighting, air conditioning & refrigeration. 24/7 emergency service. Free quotes.
- **Keywords:** electrician Canberra, emergency electrician Canberra, switchboard upgrade Canberra, EV charger installation ACT, air conditioning installation Canberra, commercial refrigeration Canberra, cool room repairs Canberra
- LocalBusiness schema with address, hours, phone
- Same name/address/phone on site, Google and Facebook

Build & launch checklist

- ☐ Domain (e.g. equalenergysolutions.com.au)
- ☐ Platform: Webflow, Squarespace, Wix or custom
- ☐ Business email on the domain
- ☐ Quote form → email + auto-reply
- ☐ Tap-to-call on every mobile screen
- ☐ Chatbot trained + tested
- ☐ Google reviews widget live
- ☐ Instagram feed embed
- ☐ Privacy policy (form + chatbot collect data)
- ☐ Google Analytics + Search Console
- ☐ Page speed and mobile check
- ☐ Link site from Google, IG and FB bios

LOCAL ELECTRICAL CONTRACTOR · BRADDON

Based in Braddon, ACT

WHAT WE DO

Electrical, air conditioning & refrigeration

From a small repair to a full installation or ongoing service work — for homes, offices, shops and commercial sites. No job is too small.

Switchboard upgrades

Replace old fuses with a modern, compliant board with safety switches (RCDs) — safer, and ready for solar, batteries and EV charging.

EV charger installation

Home and workplace EV chargers, installed safely with load assessment and any switchboard work needed.

Lighting & power

New power points, LED downlights, outdoor and feature lighting, data and TV points, renovations and new builds.

Air conditioning & refrigeration

Split systems, ducted and commercial air conditioning, plus refrigeration — cool rooms, display fridges and freezers. Supply, install, service and repair for homes and businesses.

Commercial & maintenance

Fit-outs, test and tag, emergency and exit lighting, and scheduled maintenance for offices, retail, hospitality and strata.

24/7 emergency electrician

Power out, sparking outlet or tripping safety switch? We're on call day and night when you need us most.

Why Canberra chooses Equal Energy

Responsive

We answer the phone, show up when we say we will, and keep you updated.

Honest

Clear, upfront quotes. We only recommend the work you actually need.

Detail-oriented

Neat, compliant work — and we leave the site cleaner than we found it.

No job too small

A single power point or a full commercial fit-out — same care either way.
